

His Grace Is Sufficient

Grace - refers to God freely extending Himself (His favor, grace), reaching (inclining) to people because He is disposed to bless (be near) them.

Sufficient - to be possessed of unfailing strength, to be strong, to suffice, to be enough to defend, ward off, to be satisfied, to be contented.

Do you know people who have forgotten that they need to depend on God's grace? Have you?

As you read and meditate on 2 Corinthians 12:1-10, think about how this applies to your life. What areas do you need to stop: striving/fighting in, leaning to your own understanding in, or depending on your own strength in? How can this be applied to dealing with racism?
